We are all highly intuitive but often don't have any idea how to best nurture and use these natural gifts. Learn how to turn that primal "gut feeling" into a finely tuned, accurate perceptual ability. A very simple self-empowerment meditation technique will be shared as you learn how to develop gifts that can be used to assist others or to increase your own connection to spirit. Reclaim your natural gifts and live life more joyfully! This small private cruise group is for all levels; beginners who are just starting on their paths as well as those who are experienced and are looking to broaden their gifts and become more confident in their abilities. Pendulums, Soul Cards, and Palmistry will be introduced. You will receive a Pendulum with Chart, Soul Cards, and Palmistry Mini-Book to take home along with the knowledge to gather information and confidently make decisions whenever and wherever you are! You will have fun, grow spiritually, blossom psychically, and gain the confidence to use your personal "Psychic Toolbox".
